LANGUAGES

Vietnamese
Native proficieny

English
Full professional proficiency
IELTS Overall: 8.0

SKILLS

Programming Languages:
C#, Java, Javascript/ React, Python

Game development
Unity

Version control
Git/Gitlab
Docker
CI/CD Basics

Web development
ASP.NET
React , HTML/CSS

EDUCATION

Ban Mai School	2023 - 2027
Fontys University of Applied Sciences	2023 - 2027

PROJECTS

Book review web application (Full-stack)
Tech: C#, ASP.NET, SQL, WinForms

- Built a connected desktop/web app to master API integration and state management.
- Learned SOLID principles by refactoring monolithic code into modular services.
- Implemented basic unit testing

Driessen Employee Portal (Team Collaboration)
Tech: Java, React, SQL

- Collaborated in a scrum team to deliver a functional HR dashboard.
- Practiced clean code standards and Git workflows in a real-world simulation.
- Solved merge conflicts and documented issues via GitHub Projects.

Word Guessing Game
Tech: Java, React, SQL, Docker, Cypress

- Implemented a multi-layered testing suite:
  - Unit tests
  - Intergrated tests
  - End-to-end tests
- Containerized services with Docker for consistent testing environments.
- Architected with Clean Code standards
